Personal Profile

Full-stack web developer, good with PHP, Erlang, JavaScript, ActionScript, MySQL, PostgreSQL, MongoDB, with permanent desire to self-improvement.

I'm Russian citizen with EU permanent residence, can relocate to anywhere. Married with infant, my wife is Russian citizen.

Career Objective

To be a professional and to utilize my skills and knowledge. To invent and improve, to lead and inspire.

Achievements

Started webdev in the BBDO Moscow as software engineer, co-author of many russian flash sites in 2000-2008, worked in the branch of biggest russian web-studio "Art.Lebedev Group", worked as freelancer, created the small software company for intranet solutions, last year working as JavaScript developer and project manager.

My experience includes but is not limited to the following:
Programming languages: JavaScript/Node.JS, Erlang, PHP, Python, Perl, C/C++, Delphi, Clarion, Assember, Forth, ActionScript, Java, Solidity.
JavaScript frameworks: React/Redux/Mobx, Vue/Vuex/Vuetify
Databases: MySQL, MongoDB, PostgreSQL.

Good knowledge of web technologies, including cross-platform mobile applications. Good knowledge of Telegram bot's development.

Russian native, fluent English and Bulgarian, studying Spanish.

I have more than 4 years of project management and team management practice.
